Schneider
Electric

The Evolution of Elegance and Functionality

In a world where technology and design are in constant flux, one thing remains clear: evolution is essential. The Vivace E, where the 'E' stands for Evolution, is not just a new wiring device—it's a leap forward in the way we experience and interact with our environments.

The high-gloss white finish, pure and refreshing, enhances any room with its understated elegance, while the slim profile and curved corners ensure that the switch doesn't just fit in – it stands out.

Slim profile

Sleek, frameless
large panel

Curved corner
design

Elegance in Perfect Balance

- Exquisite aesthetics, blends seamlessly into various interior styles
- Smooth touch, gentle pressure, and strong rebound, balancing aesthetics with practicality

Feel the craftsmanship

Effortless installation and safety design

The socket's terminals are designed larger than conventional ones, enabling easy insertion of 2x4mm cables, simplifying the process of looping and connecting larger cables. Additionally, it includes interlocking screws, making the installation work a straight forward task.

The socket are equipped with a safety shuttle for added protection, ensuring peace of mind.

The bottom holes on the cover for 1 to 4 gang switches and sockets enable quick and hassle-free dismantling, simplifying the process for both users and electricians.

The presence of double earthing terminals at double pole switches allows for a more secure and robust connection to the grounding system.

Vivace E

Adapt to the modern world

Vivace E is an innovative and versatile solution, tailored to the requirements of the modern world, offering advanced functions and adaptability to various projects and customer needs, ensuring effortless usage for both residential and commercial applications.

Green Premium™

An industry leading portfolio of offers delivering sustainable value

More than 75% of our product sales offer superior transparency on the material content, regulatory information and environmental impact of our products:

- RoHS compliance
- REACH substance information
- Industry leading # of PEP's*
- Circularity instructions

The Green Premium program stands for our commitment to deliver customer valued sustainable performance. It has been upgraded with recognized environmental claims and extended to cover all offers including Products, Services and Solutions.

CO₂ and P&L impact through... Resource Performance

Green Premium brings improved resource efficiency throughout an asset's lifecycle. This includes efficient use of energy and natural resources, along with the minimization of CO₂ emissions.

Cost of ownership optimization through... Circular Performance

We're helping our customers optimize the total cost of ownership of their assets. To do this, we provide IoT-enabled solutions, as well as upgrade, repair, retrofit, and remanufacture services.

Peace of mind through... Well-being Performance

Green Premium products are RoHS and REACH compliant. We're going beyond regulatory compliance with step-by-step substitution of certain materials and substances from our products.

Improved sales through... Differentiation Green Premium delivers strong value propositions through third-party labels and services. By collaborating with third-party organizations we can support our customers in meeting their sustainability goals such as green building certifications.
